QÆ (QUEERING DAMAGE OR N)

A methodology for queering damage.

A methodology for partial reparation

... or not.

A methodology for holding damage.

A damage for so-called methods.

A methodology or not.

**QUEERING DAMAGE** is an analytic to read-write the complexity of damaged/damaging technosciences and to situate ourselves in these mundane and alluring, yet reoccurring scenes. It is a set of operations that can be practiced collectively to consider the agencies, labours and harms of technoscience, to imagine life otherwise.

You can use this manual to ponder the possibilities and limitations of authoritarian informatics and to study the related affective in/non/human (microbial, animal, plant, mineral, cosmological) forces in scenes of damages. In the meantime, the manual can also be used to extend, cut or twist the very notion of "us/we/you". It is anchored in a non-linear, fragmented and partly fictional trans\*feminist para-tradition of feeling backwards and always already emerging by, for and despite damage. Queering Damage is a method for *queering damages*: an analytical praxis that functions as a plastic but rigorous method for *formulating* partial reparations... or not. Instead of extending benevolent utopianism, this praxis extends queer theories that concern personal injury into more-than-human ensembles, in order to consider the *shared* damages. It is designed to be carried in your pocket, holds a free art license and exists to be used and re-situated.

## WARNINGS (TERMS AND CONDITIONS OF USE)

While using this manual, please be aware that Queering Damage is an operative analytic that:

- Provides a framework to write accounts of damages AND a framework to write accounts of damage after (queer) reparations, or not... and does it without committing to a linear paradigm of causality.
- These accounts demand attention to the deep entanglements or implicancies of damage, particularly to its effects and affects. It attends to consequences that may happen, have happened, might happen again.
- The implicancies are considered with a recognition of their entanglement with specific spacetimes.
- Human and nonhumans are recognised as fixed and finite agencies within these operations, yet are held as elements of each other.
- The operations consider how so-called bodies might emerge as so-called humans. These becomings are not not-predetermined by historical conditions, however they are open to interventions, undoings and unmakings.
- Although Queering Damage notes agencies, it recognises that their capacities are interruptable, and not stable.

- This analytic allows to include further damages at the point of repair or reparation which are not to be excluded from the account.
- It considers the interventions that make transitions between conditions happen, whether reparative or not. There is a need to recognise that movement between conditions is not unidirectional but that these transitions might cause harms and damages themselves. Although reversal might be possible, it is not a-historical nor innocent.

## HOW DO QUEER ANALYTICS OPERATE?

This analytic develops an ethics from damages rather than from so-called individual body boundaries, whilst keeping the damages of lived experience firmly present. No forgetting, no forgiving.

The framework operates upon the damages through:

- *a series of questions*, through which orientations might shift and a complex account of damages can be generated.
- *notations of the effects and affects* on human, nonhuman, inhuman and elemental fantasies.
- operations can also be used to *imagine the possible undoings or interventions* on a condition such as love, protection etc. etc.

## QUEERING DAMAGE OPERATIONS

### OPERATION 0: ATTUNEMENT

Open the room, break the flow, get into the flow, feel the ground, attune to the environment, find the courage, feel the urgency.

### OPERATION 1: SITUATION

Consider, inhabit and add to the glossary of Queering Damage (see end of manual).

### OPERATION 2: BRINGING DAMAGES

Bring one or two experiences of 'damage' in the broadest sense. They don't have to be personally experienced injuries: they can be observed damages or collective ones. It can be bodily damage, community damage, environmental damage, personal injury, historical damage, public damage, fictitious damage, cultural damage, file damage, structural damage, naturalized damage, computer damage, urban damage, transgenerational damage, geopolitical damage ... etc.

### OPERATION 3: INTERVIEWING THE DAMAGE

Ask questions to the damage to widen the notion of damage and identify its conditions and surroundings.

- *What* is going on here?
- *Which* are the agencies implied (alive or not, human or not, powerful or powerless)?
- *Wheres* (spatiality/situatedness/displacements/distribution)?
- *Whens* (temporality/durability/existing/extinct/repeated)?
- *Semiotic-materialities*: What signs and matters are at work in this ensemble?
- Your *entanglement* with the scene
- Can a *pattern* be identified here? To what extent is this damage structural, or singular?

→ You might want to limit the time to spend with this interviewing-the-damage process.

### OPERATION 4: ACTIVATING BIBLIOGRAPHIC SELF-DEFENCE

See for example: <https://queeringdamage.hangar.org/index.php/READER>

### OPERATION 5: SUBCULTURING

Seriously test the (im)possibilities of being-with a slime mold, spirit, stone, tree, server...

## OPERATION 6: ANALYSIS

1. Define your field of interest. Cut apart and together an area of urgency. Set the scene, through naming the fields:

∩ ∴ \* √ ∠ ∞

2. Declare your AE, Entangled Agents (myth, technology, ...)

$\text{AE} = \text{pH} + \text{pNH} + \text{pIH} + \text{pF}$

$\wedge + \text{AE}$  (DAMAGE)

3. Divide by the axioms of ae (ethics) and aK (Kapital):

ae

[formula]

aK

4. Where/When:

Define the spacetime conditioning: ephemeral, eternal, cyclic, linear, continuous, eventual, historical present, memory, extinct, dreamt, extended, distributed, dissolute, dispersed, concentrated, catalysed, centrifugal, centripetal, located, situated, regional, local, global, reachable, micro, meso, macro...

$\int T$

5. Talking about relations. Analyze and notate the AE through a consideration of its Variable Relations ( $\Omega$  repair,  $\Delta$  damage, a affects, E effects,  $\odot$  creative force,  $\neq$  difference)

$\int = \wedge + \iint / (x\Omega, x\Delta, xa, x\exists, x\odot, x\neq)$

6. Generative Operations:

Apply at least one Generative Operation for your analysis, to see what it would do. Queering operations. These are tricky, they require you to take responsibility. Define their scale.

$\gg + i + * + \# + " + \heartsuit + \cup + \text{♁} + \text{♂} + \cup + * + \text{♄}$

7. Declare your

$Q\text{AE} = qH + qNH + qIH + qF + qd$ ,  
declare the reconfigured entanglement:

$(t\Omega, t\Delta, ta, t\exists, t\odot, t\neq)$

8. Divide by the axioms of ae (ethics) and aK (Kapital)

ae

[the rest of the formula goes here]

aK

9. Name the other end of the equation

$Q\text{AE}$  (Queering Damage or N)
